

EASY TO  
USE, HARD  
TO DESTROY!

# EZIWEIGH7 BLUETOOTH® WEIGH SCALE

Tru-Test's **EziWeigh7** is an accurate and easy to use weigh scale indicator, setting the standard in efficient and productive animal management.

With the capability to record information against Visual ID (VID) or Electronic ID (EID) tags, you can easily capture and analyze individual animal performance and history. Replacing guesswork with fact, the EziWeigh7 displays live weight gain since the previous session, showing animal performance right there in the field.

Using its built-in **Bluetooth** technology, the EziWeigh7 wirelessly connects to Tru-Test's XRS EID stick reader, automatically transferring scanned IDs straight into the indicator, saving time and improving accuracy. Alternatively, the animal's VID can be entered using the large and durable keypad.

The EziWeigh7 features Tru-Test's proven Superdamp™ III technology, enabling you to capture accurate live animal weights more quickly than any other weigh scale on the market, even for the liveliest animals.

Just as importantly, it's easy to use in all conditions. With its large backlit display screen you can keep

working in bright daylight, failing light or in the dark, and like all Tru-Test weigh scales, the EziWeigh7 is 100% water and dust proof. It also has added protection provided by rubber corner buffers, to withstand the toughest physical environments.

- ✓ Efficient information collection with wireless connection to EID stick readers
- ✓ Identify top and poor performers by monitoring and comparing weight gains
- ✓ Capture traits to inform feed, breeding or health management decisions
- ✓ Maximize output with fast weight lock and auto weight recording
- ✓ Easily download and share recorded information with your computer

**Key Features:**

- **Wireless or tethered EID reader connectivity.** Choose between wireless communication with EID readers up to 100 m away, or connect via cable.
- **ID capable.** Records information against EID and VID tags. VID numbers will automatically be cross-referenced with their EID match, saving you time and reducing data entry.
- **Live weight gain.** Calculates and displays an animal's daily weight gain since the previous session.
- **Capture traits or treatments.** Record notes for each individual animal.
- **Memory and storage capacity.** Stores up to 100 weighing sessions and 15,000 records.
- **Statistics.** Summary statistics from the current and previous weigh sessions can be recalled in the field.
- **Sorting capability.** Sort animals into uniform groups based on live weight; up to 3 sort ranges available.
- **Highly visible display.** The EziWeigh7 has a large 35 mm display with a super bright white LED backlight to make it viewable in all conditions, from the brightest daylight to darkness.
- **Durable case.** All Tru-Test products are designed for the tough agricultural environment. The EziWeigh7 takes this to a new level with double walled construction and rubber corner buffers for extra durability.
- **PC connectivity.** Direct and easy communication with your computer via a USB cable and EziLink™ software.
- **Auto Zero.** Ensures any accumulation of dirt or manure on the platform or chute is zeroed out.
- **Plug and play load cell connection.** The EziWeigh7 indicator is compatible with all load sensors currently available in the Tru-Test range. No calibration is required as EziWeigh7 automatically recognizes the load sensing device connected.
- **Long life and fast charging battery.** Up to 20 hours of run time and only 3 hours to recharge. The EziWeigh7 will also automatically turn off after 15 minutes of no activity to save battery life.
- **Superdamp™ III technology.** Capture accurate live weights more quickly than any other weigh scale on the market.
- **Auto incrementing and auto prefixing.** For fast entry of VID.
- **Bright red stable light.** You can easily identify when you have a stable weight.

Product Description	Part Number	Barcode
<b>EziWeigh7 Weigh Scale Indicator</b> Includes: 110v power adaptor, USB cable adaptor, mounting bracket, EziLink™ Software CD.	821187	9414731412451

General Specifications	
Size	8" x 9.5" x 3" (W x H x D)
Weight	2.6 lbs
Internal Battery	Charging time: 3 hours in normal conditions Run time: 15 – 20 hours (backlight off and depending on <i>Bluetooth</i> ® use) Auto power down: 15 minutes
Power Requirements	Supplied power adaptor or USB 5 V d.c. (do not connect 12 V d.c.). Car charger available as accessory.
Ingress Protection	IP67, 100% waterproof and dustproof
