- **Lock-in Weight Display**
- **Color-coded Keypad with Instructions**
- **Keypad-selectable Pounds/Ounces or Kilograms/Grams**
- **Standard Serial Outport for Use with Computer or Printer**
- **Easy Cleanup**

# So Easy to Use - You'll Never Get Rattled!

With all there is to do for a newborn, weighing that new little bundle shouldn't be a difficult task. DETECTO has made it as easy as can be with the 6730 Infant Scale. Plastic tray accepts baby comfortably and safely. Color-coded keypad features large "on/off", "zero" and "lb/kg" buttons, plus step-by-step instructions, so even a novice can operate the scale with ease.

The 6730 is extremely portable. It operates on "D"-size alkaline or Ni-Cad batteries. The scale has a lock-in weight feature which compensates for typical newborn movement. When weight stabilizes, it is "locked in" and displayed; infant can be removed and its weight retained until cleared. Special filtering within the microprocessing system minimizes the effects of movement on the scale, and the final weight is determined quickly.

DETECTO's 6730 weighs in pounds and ounces or kilograms and grams - you decide which by the touch of a button. (Give the parents the weight in pounds and ounces; record or chart the weight in metric units.) Seamless plastic tray and sealed keypad enable the scale to be cleaned and sanitized easily. Automatic turn-off maximizes battery life, and an added plus is the ability to retrieve the last scale weight (in case you didn't record it before the scale turned off).

The 6730 also is equipped with a standard serial output so it can be used with a computer or printer to store and record weights. Consider the 6730 Infant Scale for hospital, physician's office, clinic or home. It has the time-proven DETECTO combination of ease of use, accuracy, speed, versatility and dependability.

Step-by-step operation instructions are always in view on scale keypad.

Active babies are no problem on DETECTO's 6730 with lock-in weight display. Scale's 1" high LCD's are easy to read.

Optional label printer (Model P200) provides documentation of baby's weight, for transfer to medical record.

## SPECIFICATIONS

MODEL	6730
Capacity	30 lb x 2 oz, 15 kg x 5 g
Display	5 digits, 1" high LCD's
Scale Dimensions	23"W x 14"D x 7"H
Tray Dimensions	25.75"W x 12"D at top, tapering to 25.75"W x 9.25" D at bottom
